

YOUR BEST FRIEND.

Mother's day Sunday, May 11.

United States is one of the most authoritative ever written. The daily stories in the Standard next week will be about six of the discoverers of America. On Monday the story will tell about Christopher Columbus; on Tuesday, the Cabots; on Wednesday, Balboa; on Thursday, Ferdinand Magellan; on Friday, Jacques Cartier; and on Saturday, Henry Hudson.

The intaglio pictures which come with next week's "Mentor" are pictures of scenes in the lives of these great explorers. They admirably supplement Professor Hart's article.

The price of "The Mentor" is 10 cents and it can be purchased at the office or leading booksellers.

NO MORE FORDS

The James Auto Co. Received the Following Letter.

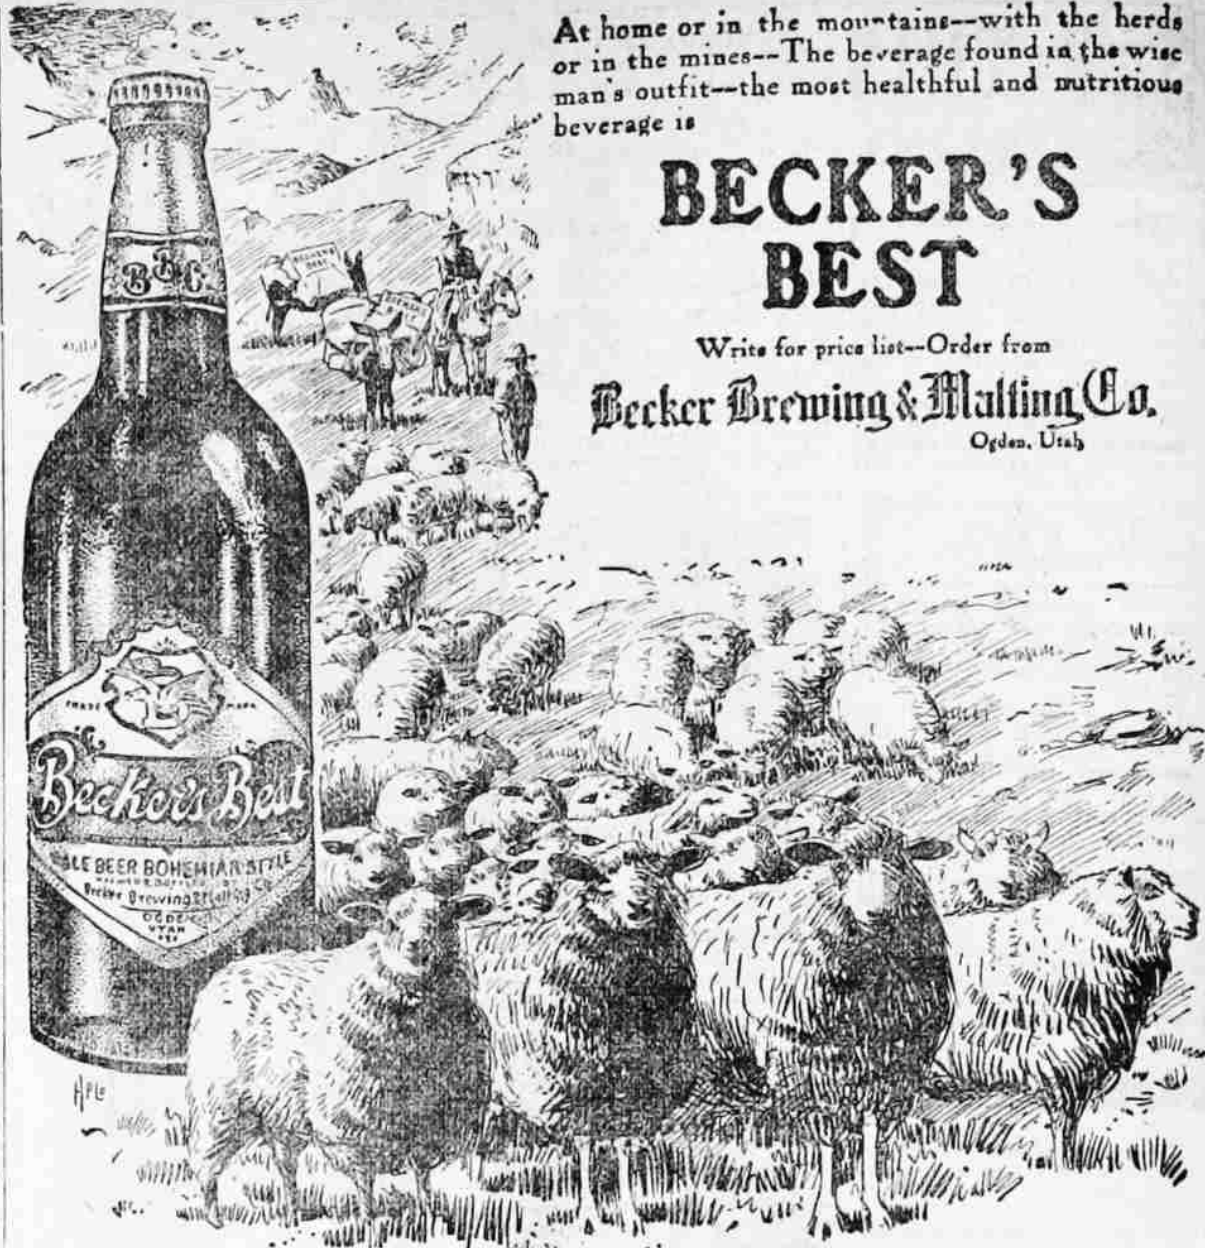

May 5th, 1913
To Dealers, Sub-Dealers, Limited Dealers and Branch Managers:
We have accepted all of the orders we can fill between now and August 1, 1913, for all models except Town Cars. Under no circumstances will we accept any more orders for Touring cars or Runabouts, as present acknowledged orders will in the aggregate take our entire output up to August 1, 1913.

This will mean that some of the orders now on file will probably not be filled until the latter part of July, and as a result very likely some will be cancelled. If there are enough cancellations to make it worth while to notify you that we can take additional orders before August 1, next, we will so advise.

If you have any orders on file that you desire to cancel, please do not hesitate to do so now, as we would prefer to have as many cancellations at this time as are likely to be made later.

The demand for Ford Model T's has been unprecedented and the closing of our order books thus early was predicted several months ago.

We are sorry that in spite of our enormous production we are not going to be able to take care of all the business offered, but there is absolutely no use writing letters and complaining about this condition, nor

BEET INDUSTRY TO BE SACRIFICED.

The beet sugar men have made answer to Congressman Underwood's statement that "what the beet sugar men want is to tax the American people in order that they may bring their beet sugar to the Atlantic seaboard and drive out all competition."

Here is the reply:
First: The people on the Atlantic seaboard who are in danger of being "driven out" are the refiners of imported raw sugars who for years held undisputed control of the sugar market. Mr. Underwood has said on a previous occasion that their interest "requires primary consideration."

Second: The people whom Mr. Underwood wants to prevent from driving out the refiners are the growers of domestic beet sugar in sixteen different states, who produce 624,000 tons of sugar in competition with 2,876,000 tons melted by the refiners.

Third: The "tax" which the American people are paying is the payment of 4½ cents a pound retail for

their sugar, as against the average retail price of 6 cents a pound before beet sugar reached the Atlantic seaboard.

Fourth: This is the first frank admission that the avowed purpose of "free sugar" is to protect the refiners of the Atlantic seaboard against the competition of beet sugar. What have the refiners done to deserve this support?

The average western sugar beet farmer will tell you he is convinced the present free trade sugar agitation is backed by the money of the sugar trust. When the beet industry was in swaddling clothes the sugar trust ignored the infant, believing it would die of inanition. When the child, after a severe struggle, grew to be a lusty youngster and threatened to give the trust trouble, Havemeyer forced his way into the home and demanded to have a voice in the control of the "upstart." Fearing to be crushed, a compromise was accepted by the sugar beet people. The sugar trust could not successfully attack the beet sugar industry while the Republicans were in power, as no considerable number of Republican congressmen or senators would dare to repudiate the principles of protection to the extent of advocating free sugar, but the moment the Democrats came into power, the way was paved for the perfidious work of destruction.

ADVOCATED BY THE STANDARD.

The state treasurer has reported that the interest for the first month on state money deposited in Utah banks amounts to over \$2000.

When the Standard in the last campaign opened fire on the state treasury because state funds had been placed in certain banks without interest, the reply made by those most concerned was that the law made the obtaining of interest on state funds impossible.

After many months, all that the Standard said has been verified and now comes the actual demonstration of the ability of the state treasurer to place the money in his keeping as to obtain for the state a large revenue.

But the greater good is to flow from taking the state money out of politics. Heretofore certain banks have thrown their influence for or against a candidate, having in view the obtaining of state funds without interest or on such terms as the treasurer might agree to.

There are other reforms which the Standard persistently has advocated, and they too must come, from our state authorities, and the most important is that of taxation.

KEEP COURT DOORS WIDE OPEN.

We regret that the mandate of the lord chancellor of England on open doors to the courts of England does not extend to the courts of the United States. On a day this week, the lord chancellor said:

"Every court is open to every subject, and a court has no power to sit otherwise than with open doors."

An eastern writer, commenting on the New England rule forbidding secret, or closed door proceedings, says:

"Trials and hearings in secret bear an air and an influence that are not good, to be as charitable as possible. Public interest should not be denied in any issue that affects the public, even remotely. Whatever the reasons that might drive secretive principals to a closed door hearing, the public has its rights, too, that should not be denied."

"If the causes that bring an issue before the public are such as bring a shame to the cheeks of those most intimately concerned, so much the worse for them, but that is no legitimate excuse for protecting the deeds of shame-faced men and women from the light. The public has a right to know all that is done by its courts and its public officials of whatever degree."

"Privacy is given its due protection in private affairs, but the minute private interests cross the public's rights the claim for secrecy becomes invalidated by the greater claim for publicity on the part of the public."

ONE MORE AVIATOR IS KILLED.

Another aviator has lost his life. This time a military expert has crashed to earth.

Of the original group of aviators, but two or three are alive, and they have escaped death by allowing the other fellows to do the flying.

The percentage of fatalities is so high that, if not reduced, the sport of flying will be prohibited by legislation.

DISCOVERERS OF AMERICA

"The Story of America in Pictures—The Discoverers" will be told in the Ogden Standard and in "The Mentor" next week. This is the first part of a series which will give the history of America thoroughly and entertainingly to readers of the Ogden Standard. Other parts of this great series, which will run through the year, are

Professor Albert Park.

"The Explorers," "The Pioneers," "The Revolution," and so on until the entire history of America is covered. Readers of "The Mentor" will find Professor Albert Bushnell Hart, who tells about "The Discoverers," a most entertaining writer. He is Professor of government at Harvard university, and his history of the

RHEUMATISM HAS MET ITS MASTER AT LAST

FREE TREATMENT GIVEN TO CONVINCE THE SUFFERERS.

Rheumatism yields instantly in one treatment of "Try-New-Life." If you are suffering from this painful malady come tomorrow morning to 322 24th street and be shown, without a cent of cost, just how quickly rheumatism can be relieved.

It may be rheumatism of the muscles, making them ache and burn and twitch so that every movement is painful. In the hands of a skilled operator the little "Try-New-Life" machine will soothe away the ache, stop the twitching, soften the hard knots that seem tied into the flesh, and give back the muscles in an astonishingly short time.

It may be rheumatism of the joints, where uric acid has been left by impure blood, and acts like sand in machinery. This always leaves a joint more or less stiff and useless.

Perhaps it is called lumbago, or rheumatism of the muscle of the small of the back. It will yield just as readily. A skilled operator puts the proper applicator against the affected muscles and in a moment the warm thrill of new life is felt flowing into and through them, the pain is taken away and natural conditions are restored.

Inflammatory rheumatism is one of the most painful of all diseases, yet it yields to "Try-New-Life." The trained demonstrator knows just the applicator to use, just the pressure to give, just what to do in each case, and relief is immediate. Come to 322 24th street, and get a free demonstration if you are afflicted with this disease.

When it affects the great nerve of the thigh it is called sciatica, but the name makes no difference—it is a pain that is common to all, and it will take but a moment and it will cost nothing.

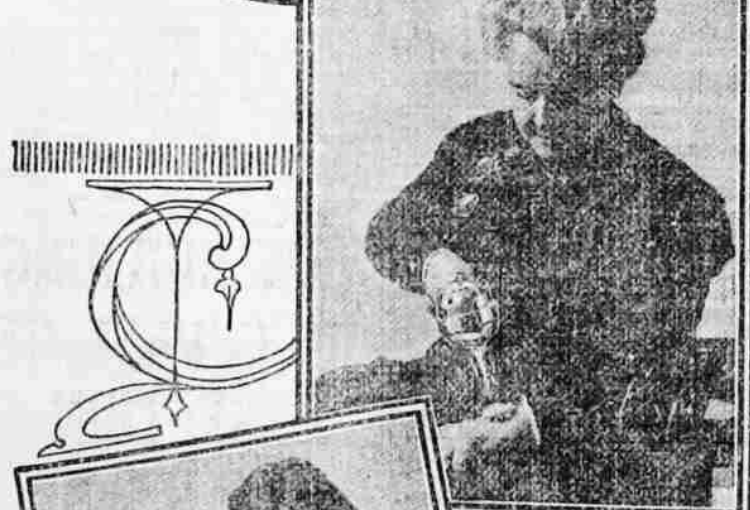

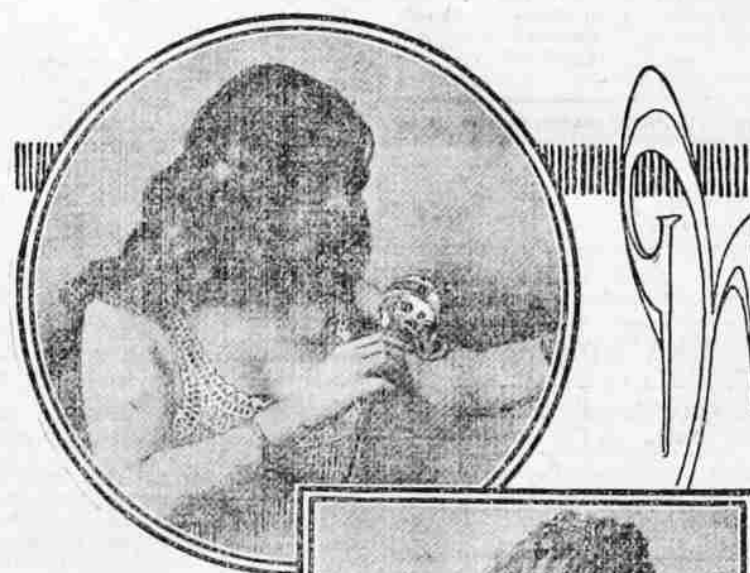

IT STOPS INDIGESTION. You will find, if indigestion is your trouble, that one short treatment will take away the gnawing pain, soothe the heartburn, stop the rising of gas, allow your stomach to retain the food you eat and give you an appetite you have not known in a long time. Come and see.

Headache yields just as readily to this scientific treatment. The soft applicator is passed over the throbbing temple and the burning brow, and in a moment you are eased and quieted. Some of the most desperate headaches ever known have been entirely taken away in 10 minutes with "Try-New-Life." Come and try it—there is no charge.

For One Year We Have Been Giving Free Treatments at Our Demonstration Parlors

Thousands of suffering people have been relieved. More than three hundred "Try-New-Life" machines are in use in Ogden. Not one dissatisfied purchaser

PERFECT HEALTH IS NOT POSSIBLE WITH POOR CIRCULATION, AND SUCCESS IS NOT PROBABLE WITHOUT GOOD HEALTH. WHAT REASONS HAVE YOU FOR NOT GIVING TRY-NEW-LIFE A CHANCE TO PROVE ITS MERITS AS A HEALTH RESTORER? YOUR SUCCESS DEPENDS UPON YOUR HEALTH. CALL AT OUR DEMONSTRATION PARLORS FOR FREE TREATMENT.

New Magic Instrument for Healing Disease Is Offered for Sale or Rent.

Small Payment Down Gets a Machine for Two Weeks, and Rent May Be Applied on Purchase Price.

"Try-New-Life" is within the reach of every one. A liberal discount is allowed for cash, but if you cannot pay cash, arrangements have been made to allow responsible persons to take an instrument on easy payments.

Still another plan allows you to rent an instrument for a small sum. This rental entitles you to the instrument for two weeks and at any time before the end of the two weeks you can buy it and the rental will apply on the purchase price.

If you need "Try-New-Life" some arrangements can be made to place one in your home. Come to the "Try-New-Life" office, 322 24th St.

Deafness Is Successfully Treated. Deafness is one of the most stubborn cases to treat, because it requires 8 or 10 treatments before you notice results. However, one single treatment will stop the noise or ringing in the ear. A remarkable difference can be noticed after the eighth treatment.

LADIES OPERATORS TO WAIT UPON LADIES

There are lady operators at the Hamilton-Beach Sales company offices at 322 24th street to wait on ladies. Nearly all treatments can be given with the clothing on.

Weak Bladder Strengthened

Have you a weak bladder that insists on getting you out of bed half a dozen times at night? You ought to have a "Try-New-Life" instrument in the house and give yourself treatment night and morning. It often happens that one or two treatments will correct the whole trouble, but in most cases a course of treatment is required, though immediate relief is felt from the beginning.

Free Demonstration at Home

If you are unable to call at our offices for a free demonstration or get one of our books, drop us a card or call us on the telephone and an experienced demonstrator will call upon you and show you just how the little machine is used, which applicator is the best and how to get the best results from "Try-New-Life."

SAFE!

MADE A RUN! PRODUCED RESULTS!

That is what
